Hair Analysis & Wellness Programme

The Bio-Compatibility System is the result of over thirty years of research and development by qualified Naturopaths in Australia. This is a Naturopathic Wellness programme which is used in more than 20 countries.

Here is how it works:

The technique is based on the way in which the foods and products benefit the individual person. Each person is unique so it obviously follows that when it comes to foods and household products that 'one size does not fit all'.

Each individual has his/her own nutritional and energy requirements. Have you noticed that some foods give you good energy while others seem to drag you down and seem to aggravate existing symptoms?

Bio-Compatibility Hair Analysis is about finding local foods and household products that suit the individual. It is not based on Nutritional advice nor is it a Medical programme designed to treat diseases.

This 6 month WELLNESS PROGRAMME follows the Naturopathic principle,

"Feed the body correctly and allow the body to repair itself".

Using a hair sample, Bio-Compatibility testing identifies the influence (either positive or negative) that each of a wide range of foods and products has on the individual body. This way we are able to determine which foods and products should be avoided and which can be used. Remember, feed the body correctly and it can function much better.

What our hair analysis test covers

Our standard test covers a list of 500 items — including all food groups, bathroom, laundry, Gluten-free and kitchen products. The focus is on what you CAN eat and use rather than what you can't. It includes common local brands found in supermarkets and health food stores. Each item is tested in the form it is usually consumed (both raw and/or cooked where applicable).

6-month WELLNESS PROGRAMME

we then test your compatibility with over 500 local foods and products. We use these test results to develop your *personal Wellness Programme*.

You receive a very comprehensive 16 page report which includes full instructions for the 6 month period.

The Report includes

Test results for over 500+ items from local supermarkets.

Day to day instructions to help you implement the programme correctly

General information on the different food groups

A '4week Progress form' which you fill out and return to me. This information is used to assess your progress and make changes if necessary. Your response to the programme is individual so we like to follow-up and assist you to gain the most benefit

The cost is for the test only, and excludes consultation fees.
